CONFERENCE & EXHIBITION

NEAR SURFACE GEOSCIENCE'25

7-11 SEP 2025 | NAPLES, ITALY

EVENT

REPORT

IN NUMBERS

 **31ST MEETING ON**
**ENVIRONMENTAL AND
ENGINEERING GEOPHYSICS** 

 **6TH CONFERENCE ON**
**MINERAL EXPLORATION
AND MINING** 

 **4TH CONFERENCE ON**
**INFRASTRUCTURE PLANNING,
MONITORING AND BIM** 

 **1ST CONFERENCE ON**
**GEOHAZARDS ASSESSMENT
AND RISK MITIGATION** 

 **1ST CONFERENCE ON**
**UXO AND OBJECT
DETECTION** 

ABOUT THE EVENT

This year NSG expanded its scope by featuring five parallel conferences under one event, including two new exciting additions.

- ▶ Environmental and Engineering Geophysics
- ▶ Mineral Exploration and Mining
- ▶ Infrastructure Planning, Monitoring and BIM
- ▶ Geohazards Assessment & Risk Mitigation (Newest addition)
- ▶ UXO and Object Detection (Newest addition)

With this broad scope, participants had the opportunity to explore a wider range of subjects and innovative approaches, opening new avenues for growth within geoscience. Naples served as the perfect gathering place for industry leaders, academics and young professionals to share knowledge, display solutions, and explore opportunities for collaboration.

“It’s that unique mix of industry and academia where specialists share methods, industry brings real-world challenges, and together they create the perfect environment for innovation”.

Andi A. Pfaffhuber

CEO & Founder - EMerald Geomodelling, Chair Environment, Minerals & Infrastructure Circle - EAGE

“It’s very essential to be here because this is where science, technology and industry meet to shape the future”.

Giovanni Ranieri

CEO, Next Geosolutions

“Students get exposed to an international setting that allows them to gain new perspectives for their work and possible collaborations”.

Valeria Paoletti

Professor, University of Naples Federico II, LAC Co-chair NSG 2025

HIGHLIGHTS

CONFERENCE & EXHIBITION

This year's NSG opened with an engaging panel on the power of geoscience communication, exploring strategies around geohazards and drawing insights from the mining sector and beyond. The programme brought together distinguished speakers from academia, industry, and authorities, featuring special sessions on Europe's strategic path for innovation & critical raw materials, and emerging breakthroughs in near-surface research. The event also hosted its largest exhibition to date, with 48 exhibitors and a dynamic mix of scientific and commercial engagement.

 **93%**

of attendees scored **satisfied or higher** with the event in the post event survey

THANK YOU

TO OUR SPONSORS, EXHIBITORS, AND EVERYONE
WHO HELPED MAKE THIS EVENT A SUCCESS!
