EAGE

NSG'26

CONFERENCE & EXHIBITION

20-24 SEP 2026 | THESSALONIKI | GREECE

Environment - Minerals - Infrastructure

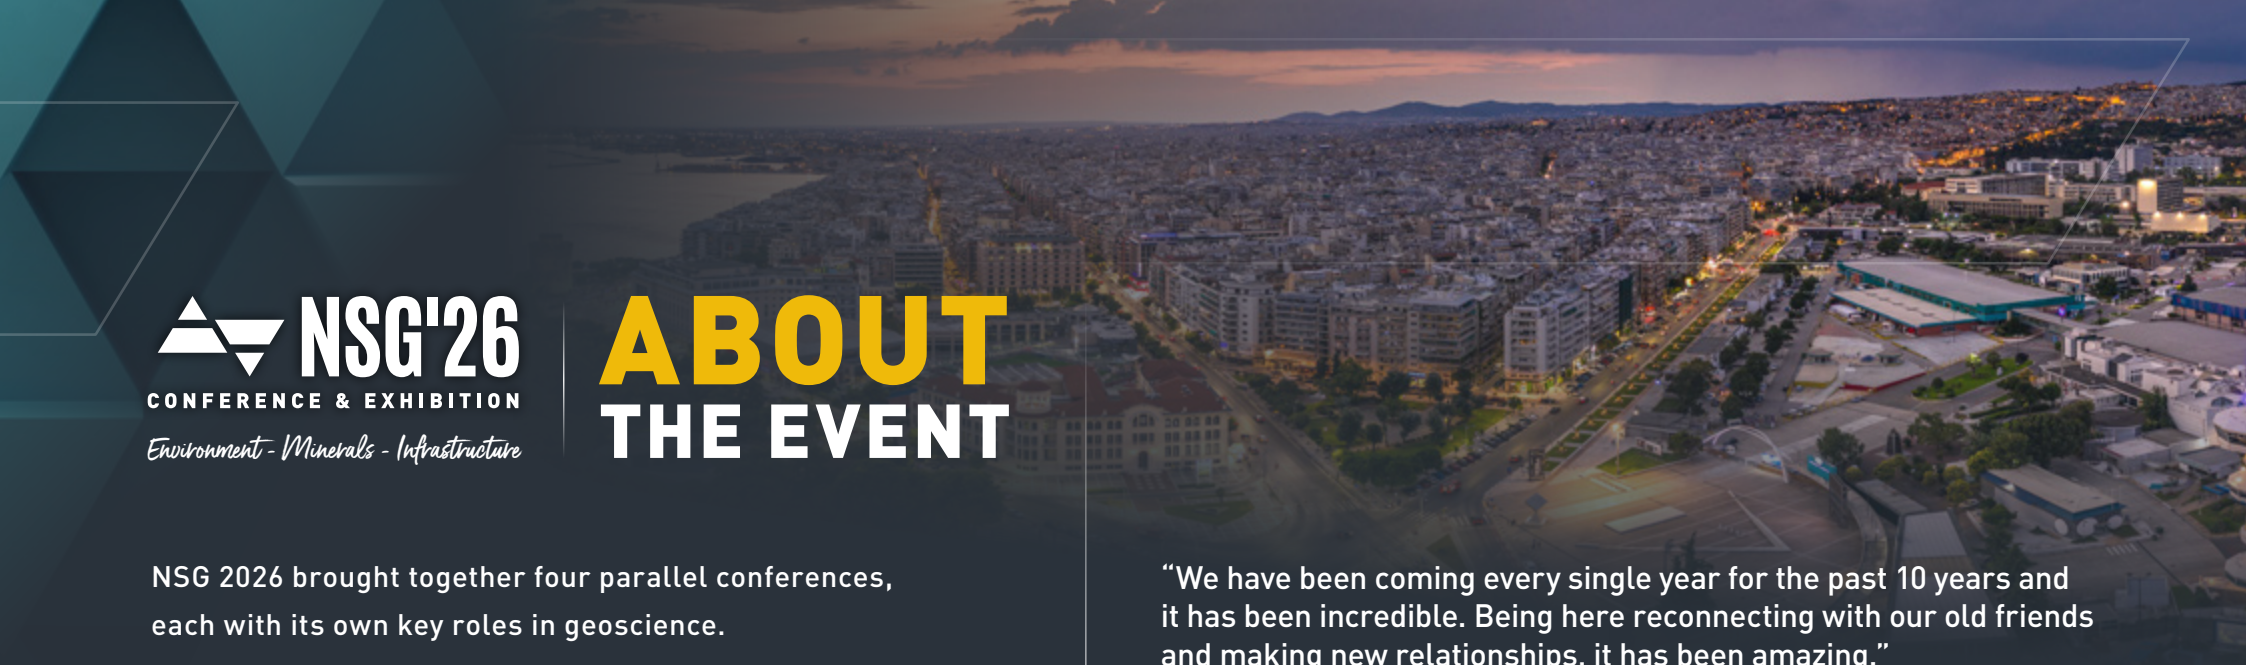

EVENT REPORT IN NUMBERS

32ND MEETING ON
ENVIRONMENTAL AND ENGINEERING GEOPHYSICS

7TH CONFERENCE ON
MINERAL EXPLORATION AND MINING

3RD CONFERENCE ON
HYDROGEOPHYSICS

2ND CONFERENCE ON
GEOHAZARDS ASSESSMENT AND RISK MITIGATION

NSG'26
CONFERENCE & EXHIBITION
Environment - Minerals - Infrastructure

ABOUT THE EVENT

NSG 2026 brought together four parallel conferences, each with its own key roles in geoscience.

- 32nd Meeting on Environmental & Engineering Geophysics
- 7th Conference on Mineral Exploration & Mining
- 3rd Conference on Hydrogeophysics
- 2nd Conference on Geohazards Assessment & Risk Mitigation

With this expanded scope, the conference covered a broad spectrum of scientific discoveries and explored new frontiers, innovation, and emerging technologies shaping geoscience.

Held in the beautiful city of Thessaloniki, Greece, industry leaders, distinguished academics, authorities and the next generation of geoscience professionals came together to connect and collaborate, transforming knowledge into impact on sectors that relay on geoscience.

"We have been coming every single year for the past 10 years and it has been incredible. Being here reconnecting with our old friends and making new relationships, it has been amazing."

Musa Manzi
University of Witwatersrand

"It feels more like a family. And I think this also helps to make long lasting collaboration and a very good network."

Sebastian Uhlemann
University of Bremen

"I am really satisfied to see people from both industry and academia collaborating with people from around the world with interdisciplinary projects. That's very important."

Stratis Karantanellis
California State University

FOUR PARALLEL CONFERENCES

32ND MEETING ON
ENVIRONMENTAL AND ENGINEERING GEOPHYSICS

7TH CONFERENCE ON
MINERAL EXPLORATION AND MINING

3RD CONFERENCE ON
HYDROGEOPHYSICS

2ND CONFERENCE ON
GEOHAZARDS ASSESSMENT AND RISK MITIGATION

NSG BECOMES EMI

ENVIRONMENT - MINERALS INFRASTRUCTURE

This year's NSG conference marked the beginning of an exciting new chapter with a major announcement to the community: NSG is becoming EMI — Environmental, Minerals & Infrastructure. The mission of EMI is to continue to serve the interests of the community by enabling learning, professional development, and knowledge exchange, while increasing the accessibility, visibility and impact of geoscience.

The new identity broadens the community's reach, highlighting the contribution of near-surface technologies to environmental protection, sustainable mineral exploration and resilient infrastructure. It also creates opportunities to attract new audiences, strengthen industry engagement and foster cross-disciplinary collaboration, while maintaining the strong technical foundations of the Near Surface community.

95%

of attendees scored **satisfied or higher** with the event in the post event survey

THANK YOU

TO OUR SPONSORS, EXHIBITORS, AND EVERYONE
WHO HELPED MAKE THIS EVENT A SUCCESS!
